

Recombinant DNA Registration Form

Proposal Title:

Agency (Institute):

Principal Investigator (PI):

Department:

Brief Description of Research:

- a. The source(s) of the DNA.
- b. Nature of the inserted DNA sequences.
- c. The host and vectors to be used.
- d. Will this rDNA be introduced into animals? If so, which species and by which route of introduction?
- e. Will a deliberate attempt be made to obtain expression of a foreign gene in the cloning vehicle? If so, what protein?

I certify that I have read and understand the NIH Guidelines and instructions and agree to comply with them. I fully agree to notify the committee of any significant changes in the research project.
